

SUMMER IS GONE

After a nice summer (that is never long enough) it's time to get ready for winter. Garden harvests are almost complete, flowers are nearing the end of bloom, time to put them

summer clothes away for a long winter nap and prepare yourself for old man winter. Time to get those last minute summer projects done and prepare the outdoors for snow.

Remember to get your car ready for the winter roads. Check them tires and make sure it's ready for snow. If you haven't had your heating appliance serviced yet, now is the time. Don't be caught this winter with a broken or inefficient heating system. Just FYI, we service all brands and makes.

Is Your House Dry

Did you know that you can have a whole house humidifier installed on your heating system? By adding humidity in winter, you remove static shock, dry noses and reduce your heating energy consumption.

Did you know?

We offer many financing options up to 120 months. You can have a new heating system installed for as low as \$38 / month with no money down. Most people don't know that the cost of installing a new high efficient system is cheaper than paying your gas bill with your old system.

Did You Know?

Today's gas furnaces are as efficient as 98% which means only 2% of the gas you burn goes out the chimney, making this a super high efficient appliance. More money in your pocket and less to the gas company. Call us today to learn how to save money. We offer industry leading financing.
